

Bachelor of Science in Banking & Finance Accounting Specialization

The EIBFS B.Sc. programs offer outstanding education, involve students in a continuous process of learning that helps them to develop, grow, and establish a well-grounded career in corporate and financial sectors; students receive help and support of well-qualified faculty, who are capable of balancing and integrating theory and practice in the best educational environment conducive to learning.

The Bachelor of Science in Banking and Finance, with Accounting Specialization prepares students for success in various accounting careers in corporate accounting, public accounting, governmental accounting, & not-for-profit accounting. Students gain the theoretical knowledge, practical skills, and research skills needed to address complex accounting issues.

Program Objectives

01 to train professionals with sufficient skills to undertake management, advisory and directorship roles in the private and public sector, in insurance, banking and stock market companies, and in directorship and managerial roles related to business or the coordination of resources.

02 to enable provision of professional specialized services in handling and interpreting accounting and financial systems; in managing operations related to financial companies and markets; and in management accounting.

03 to endorse skills that enable students to identify and anticipate market and sector opportunities, allocate resources, manage information, select and train personnel, and make the necessary decisions to achieve the goals of the company or institution in which they are employed.

Duration

The program runs five days per week, Sunday to Thursday-Morning or Evening sessions for eight (8) theoretical semesters (16 weeks each), and three (3) summer semesters (8 weeks each), which involves presenting the project report of supervised internship.
